

YOUR CHIROPRACTIC VISIT

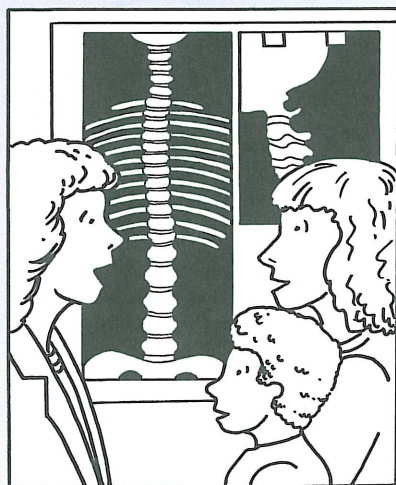

First, you'll meet the doctor who will ask you about your health.

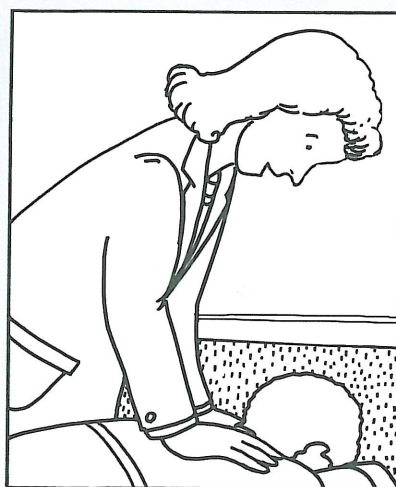

Then the doctor will have you turn and bend and see how straight you stand.

The doctor might make some pictures of your bones. Smile!

Your chiropractor will tell you what's wrong and what can be done to help you.

Your chiropractor will move the bones in your back and neck to help your body heal.

Make plans to visit us again to keep your health at its best.
